BOUTIQUE HAIR & BEAUTY

INFORMATION & PRICE LIST

COLOUR & TECHNICAL SERVICE

My aim is to hold your hair in the highest of integrity and be as transparent as possible, keep prices low and market related. The below services are a price guideline - prices will be quoted on consultation and dependent on the amount of product needed to be applied.

Bleach lightening applications on scalp this will need a consultation before where we choose the desired end result of colour - toner or vivid. We do a strand test on a piece of your hair for us to test your strength and previous product history for the best results, and a patch test on your skin.

Root tints and toners. I choose to work with low chemical products which protect the integrity of your hair and skin. However, it is sometimes possible even having used products for a long time to become allergic or have a reaction. And although it is not a legal requirement, I would recommend all new clients to come and have a free 10 minute consultation and patch test. (We then wait 48 hours to make sure you are perfectly fine before proceeding with your service.) Please do let me know if you have any allergies or intolerances before we carry out any skin colouring service.

FREE 10 MINUTE CONSULTATION

What are you imagining for your style? What I think will work for you as we look at your hair texture, growth patterns, face shape, strengths, suitability, budget, and lifestyle choices for the best outcome.
